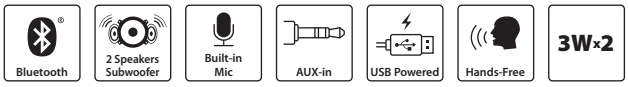
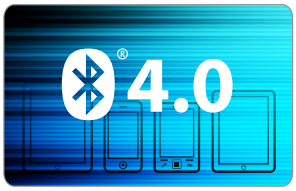
SP-920BT

Small, but Powerful

Get ready to play your favorite music anytime, anywhere with the Genius SP-920BT. It uses the latest Bluetooth 4.0 capability and is an ideal wireless companion for your smart mobile gadget -- be it your smartphone, tablet or laptop. The SP-920BT is built with two powerful speakers housed on two sides of the cube delivering a full range of 360° projected sound plus a passive radiator base driver subwoofer on the bottom pushing out exceptional bass effect. It offers up to 8 hours of continuous music playback and only requires 2.5 hours of battery charging. In addition, you won't miss any important calls during music playback with a built-in microphone. With the compact size and elegant color design, SP-920BT is the best music companion to match your on-the-go style.





Bluetooth 4.0 Technology

SP-920BT, built with a state-of-the-art CSR chipset, streams music wirelessly from any Bluetooth-equipped device, including a wide range of smartphones, tablets and laptops.

Simple Pairing

When turned on, SP-920BT will enter into pairing mode and enable your mobile device to pair with it without pressing another button. If it was previously paired with a mobile device nearby, it will also connect to it right away.

2 Speakers + Subwoofer

Two built-in 3-watt speaker drivers plus a passive radiator base driver subwoofer deliver great stereo sound and is complemented with an extra bass effect.

Wired is just another option

With the integrated AUX-in function, SP-920BT is ready for other audio devices.

Call-Answer Button

With the built-in microphone and call-answer button, you can answer a call and turn on the microphone to give you a hands-free call environment.
